Growth Status: This School Exceeded Growth

What is Growth? The Growth Status measures the academic growth of a school's students from the previous year to the current year.

Formula for determining the School Performance Grade:

- 80 percent of the School Performance Grade is based on the school achievement score. The school achievement score is calculated using a composite method based on the points earned by a school on all of the tests measured for that school
- 20 percent of the School Performance Grade is based on academic growth
- If a school has met expected growth and inclusion of the school's growth score reduces the school's performance score and grade, a school may choose to use the school achievement score solely to calculate the performance score and grade

Formula for determining the EOG Math and EOG Reading Grades:

- 80 percent of the grade is based on proficiency
- 20 percent of the grade is based on growth

LEVEL 2: Partial Command of knowledge and skills

What does this new achievement level number mean?

The new achievement levels are similar to the old ones, with the addition of a middle category that did not exist before. Students scoring at Levels 1 and 2 will likely need additional help next year to succeed in that subject area. Students scoring at Level 3 are considered proficient for that grade level or course, but may still need some targeted help in the next grade or course. Students scoring at Levels 4 and 5 are ready for the next grade or course, and are also on a path to be prepared for college or a career by the time they graduate.

Why did the achievement levels change?

The State Board of Education created the new achievement levels to communicate more accurately both how well students have mastered the standards in their grade or course, and how ready they are to move forward toward college and/or a career.

* The reading and math End-of-Grade tests are administered in grades 3-8. The science End-of-Grade tests are administered in grades 5 and 8 only.

READ TO ACHIEVE

The Read to Achieve program is a part of the Excellent Public Schools Act which became law in July of 2012 and applies to all schools at the beginning of the 2013-2014 school year. The goal of the State is to ensure that every student reads at or above grade level by the end of third grade. Students who are proficient on the 3rd-grade EOG or qualify for a "good cause exemption" are promoted to Grade 4. Students who are not proficient may be retained in 3rd grade or placed in 4th grade with extra reading instruction and interventions.
